## Projects

**Portfolio** ( <https://hilarious-licorice-158544.netlify.app/> )

- This is my Personal Portfolio site where you can check my work and skills.
- This website is completely made by HTML, CSS and JavaScript.
- For Beautiful UI here I use very light color for user friendly and use some animations to attractiveness.
- It's is Fully responsive in your PC/Laptop and mobiles.

**Tic-Tac-Toe** ( <https://bright-jalebi-70cc2d.netlify.app/> )

- This is my small project a tic-tac-toe game.
- This project is made by HTML, CSS & JavaScript.
- For functionalities & logic I use JavaScript.
- You can play this game in your PC/Laptop as well as your mobiles.

**Weather Forecast** ( <https://lively-duckanoo-ff99ff.netlify.app/> )

- The site is completely made of HTML, CSS & JavaScript.
- For Updating an every data I used RapidAPI.
- It is used in both PC/Laptop and mobile and for functionalities & logic I use JavaScript.
- Otherwise the Site is very reliable and comfortable to use and very light UI is used.

**Login Page** ( <https://elegant-paletas-f0e8d2.netlify.app/> )

- This is simple a Login page of attractive UI.
- It is just a Front-End part where I use React & Vite , CSS.
- In this project I use Figma Design for User Interface.
